Financial Assistance

Medi-Cal Access Program (MCAP)

800.433.2611

www.mcap.dhcs.ca.gov

You have a baby on the way! The State of California wants to help you get good health care during your pregnancy. Going without prenatal care can cause many problems for you and your baby. Studies show that women who do not get prenatal care often have more complicated (and expensive) births. If you don't have insurance to cover your pregnancy and you are not receiving no-cost Medi-Cal or Medicare Part A and Part B, the Medi-Cal Access Program (MCAP) may be the helping hand you and your baby need. MCAP can also help if you have other health insurance that doesn't cover maternity services or with a maternity-only deductible or co-payment greater than \$500. Check with your other health insurance plan to see if your deductible or co-payment is for maternity-only services.

Teen Resources

Adolescent Family Life Program

831.454.4339

Public Health Nurses provide home visits to pregnant and parenting teenage women under age 19, teenage fathers and their children. Services include assessments, education, and case management for teens to promote a healthy pregnancy and baby, to stay in school or re-enroll in school, to postpone future pregnancies, and to become emotionally, socially, and financially independent.

Teenage Parent Program (TAP)

831.724.8964

The purpose of this program is to enable teen parents to attend and graduate from high school as parents of young children. It is a priority of this program to teach parenting skills through modeling and instruction. A caring, close-knit team of teachers assists students to engage in academic, social and emotional health. Students in the TAP Program and Watsonville Community develop a strong sense of belonging and learn to recognize the worth and value of others. A high percentage of teens attain academic success because the school's expectations of students are clear, concise and realistic.
